### DETAILS WANTED OF AWARDS WON BY MEMBERS OF NBPC

Could all members who have won awards this year for external competitions (other than NBPC competitions) please send me the details, I would like to publish the details in Shutter Flutters.

What I need is:

- The name of the competition
- The name of the image entered
- A digital copy of the image if possible no larger than 1024 wide x 768 high
- Your name
- The award won

It would be great if you could email it to me no later than 23 November.

Light Pole Colombo St Overbridge

## NAMING OF DIGITAL COMPETITION ENTRIES

This is the format we use:

4 Year Grade Competition # underscore Title underscore Author

**4:** This prefix is used for all images. The prefix can be changed to 1, 2, or 3 for winning images. These can then be separated from images that did not win an award. The winning images are kept in the club archives for interclub competitions, shown on the NBPC website, and published in Shutter Flutters.

**2010:** used to specify the year the image was entered.

**Grade:** used in order for the image to be judged in the correct category.

**Competition number:** used to identify the competition it is entered into.

**Underscores :** used to separate the sections of the title.

Example: 42010B5\_The Great Outdoors\_JBlogs.jpg

Spaces can only be used in the actual title of the image, and nowhere else. Only underscores are used, not hyphens.

The digital competition secretary will advise the naming format for specific competitions, e.g. Highland Trophy competition..

## RE-SIZING YOUR IMAGES

For digital images you want to enter into competitions it is usually necessary to resize the image in order for it to be projected correctly.

It is important to make a copy of the image you want to resize before you start. That way you will always have the original to make other copies from.

Many of us have some sort of photo editing software on our computers, e.g. Photo Shop Elements, Photo Shop, Light Room, Paint Shop Pro, Picasa, and so forth.

- 1 Choose the image you want to re-size.
- 2 Make a copy of the image.
- 3 Using your photo editing software, for example Photoshop, select the copy of the image.
- 4 On the tool bar, under the image tab, click on Image Size.
- 5 A box opens where you can specify the size of the image.
- 6 For all images submitted digitally for club competitions the **width** entered **must not** be more than **1024** pixels.
- 7 For all images submitted digitally for club competitions the **height** entered **must not** be more than **768** pixels.
- 8 Save the re-sized image with the name you intend to use for the competition you are entering it into.

It is important to remember that an image cannot be any higher than 768 pixels, or wider than 1024 pixels.

The reason for this is that the projector will **not** project the image correctly if the pixel dimensions stated above are exceeded.

**SET SUBJECT COMPETITION: SYDENHAM (SS4)**

**RESULTS Date - 05/10/2010 JUDGE: Adair Wilson APSNZ**
